50X1-HUM

* ☐ Comment. As compared with the last reported status of 2 May 1952, coal stocks rose by 3,977 tons to a total of 304,156 tons, a reserve adequate for 15.4 days' operations. Hard coal stocks increased by 2,000 tons to about 50 percent of total coal stocks. The number of loaded railroad cars awaiting dispatch continued to drop. Although the number of operational railroad cars slightly decreased, it was above the fixed daily quota of 20,000 units throughout the reported period.
